

ENVIRONMENTAL RISK ASSESSMENT

Phase and Activity DETAILS OF WORK ACTIVITY How will the work be done? <small>(List steps in logical sequence & include materials, equipment, etc)</small>	Aspect What aspect of the work has the potential to cause harm environment?	Impact What aspect of the environment are the works likely to impact on? See above	Hazard What is the impact to the environment? E.g. Poorly installed erosion and sediment controls leading to pollution of local water	Environment Risk Ratings			Risk Treatment/Management Measures	Residual Risk Ratings			Who
				Consequence	Likelihood	Risk Assessment		Consequence	Likelihood	Risk Assessment
